Hey! I’m Andrés, I’ve been working on making the Internet a better place since 2018. I’m trained both on frontend and backend, but I prefer working on frontend. I always try to bring new ideas to the table, from new technologies to how we can work together to improve the daily tasks. When I’m off work I like to play video games, that’s where most of my inspiration comes from.

### Experience

- ◆ Frontend Developer - Dos al Cubo (2023 - Present)  
Create and give support to newspapers webpages made with the Thinkindot CMS  
**Jquery, CSS, Node.js, SQL**
- ◆ Frontend Developer - Simplistic ( 2020 - 2023)  
Rethinking the concepts of online shopping to bring new experiences to our customers using Shopify. Give support to already created stores and work very closely with the design team to create new ones and give a fresh experience to customers.  
**Javascript, SCSS, React, Shopify**
- ◆ Vue.js Developer - Opratel (2019 - 2020)  
Migration of legacy app of Todosgamers from PHP to Vue.js and Laravel giving a newer and responsive experience, while creating strong foundations for future scaling.  
**Vue.js, SCSS, Typescript**
- ◆ Frontend Developer - FNET Systems (2018 - 2019)  
Create and maintain web apps made with a variety of technologies for stock management for the local police department, government transit cameras tech support and Claro Argentina.  
**Vue.js, PHP, MySQL, Node**

### Education

- ▶ Videogames Development - Davinci University (2018-Present)  
**Unity, C#, Adobe Photoshop, Adobe Illustrator, Substance Painter**
- ▶ Educacion IT - Backend Development (2020)
